NEMA 1 Hinge Cover Enclosure

Application

EPI NEMA Type 1 Hinge Cover Enclosures are used for control cabinets and instrument cases in areas which do not require protection from rain, snow, or sleet. Typically used indoors only.

Construction

Made from 16 or 14-gauge steel. The covers have continuous stainless steel hinge. Optional hardware: cylinder lock, latch and hasp for padlocking. Panels must be ordered separately. Available in Aluminum and Stainless Steel.

Finish

The standard finish is G-90 galvanized steel. A painted enamel finish is also available inside and out. Sherwin Williams ANSI-70 light-dove gray.

Industry Standard

Meets National Electrical Manufacturers Association (NEMA) standard for Type 1 (General Purpose) enclosure.
