## NEMA 1 Screw Cover Enclosure

### Application

EPI NEMA Type 1 Screw Cover Enclosures are designed for use as pull boxes in areas which do not require protection from rain, snow, or sleet. Typically used indoors only.

### Construction

Made from 16 or 14-gauge galvanized steel. Flat removable covers are fastened with screws. (Split covers provided for enclosures wider than 48") For flush installations, flush covers for pull boxes must be ordered separately. Panels must be ordered separately. Available with a flush cover. Available in Aluminum and Stainless Steel.

### Finish

The standard finish is G-90 galvanized steel. A Sherwin Williams ANSI-70, light-dove gray painted enamel finish inside and out is also available.

### Industry Standard

Meets National Electrical Manufacturers Association (NEMA) standard for Type 1 (General Purpose) enclosure.
