NEMA 12 JIC Hinge Clamp Cover Enc.

Application

EPI NEMA Type 12 JIC, Continuous stainless steel hinge Clamp Cover Enclosures are designed to house electrical controls, terminals, and instruments. They provide protection from dust, dirt, oil, and water. For indoor use.

Construction

Made from 16 or 14-gauge steel. All seams are continuously welded. There are no holes or knockouts. External screw clamps are provided for securing the gasketed cover. The screw clamps are quick and easy to operate and have no loose parts. A continuous stainless steel hinge is provided. External mounting feet are furnished for mounting.

Accessories

Panels must be ordered separately. Provisions for padlocking and other hardware can be provided if specified.

Finish

The standard finish is Sherwin Williams ANSI-70, Enamel, light-dove gray inside and out. Additional finishes can be provided.

Industry Standard

Meets National Electrical Manufacturers Association (NEMA) and Joint Industrial Council (JIC) standards as indicated. JIC EGP-1-1967.
