NEMA 3R Telephone Cabinet

Application

EPI NEMA Type 3R Telephone Cabinets are used for control cabinets and instrument cases in outdoor installations. These cabinets are available in single and double door. Designed to protect enclosed equipment against falling rain, sleet and snow; may be used indoors where dripping water is a problem.

Construction

Cabinets are made from 16 or 14-gauge steel. Covers have continuous stainless steel piano hinges and are held closed by a flush paddle latch. Available in Aluminum and Stainless Steel.

Accessories

Optional key-locking cylinder lock and hasp for padlocking. Interior panels: wood or steel.

Finish

The standard finish is a Sherwin Williams ANSI-70 light-dove gray painted enamel finish cover only.

Industry Standard

Meets National Electrical Manufacturers Association (NEMA) standard for Type 3R (Rainproof and Sleet-Ice resistant) enclosures.
