NEMA Type 4X Floor Mounted Enclosure

Application

EPI NEMA Type 4X Single Door, Floor Mount, Stainless Steel Enclosures are designed to house electrical controls, terminals, and instruments in areas which may be regularly hosed down or where serious corrosion problems exist. Suitable for use outdoors, or in dairies, breweries, petrochemical plants, sewage plants, food processing areas, packing plants, and similar installations.

Construction

Made from 14, 12, or 10-gauge stainless steel (Type 304 2B) and have strong and rigid construction. All seams are continuously welded. There are no holes or knockouts. A lip is provided on all three sides of the door, preventing dirt and liquid from dropping into the enclosure. Stainless steel door clamps are provided on three sides of door to ensure a watertight seal with oil resistant gaskets. A heavy gauge continuous stainless steel hinge supports door. A hasp and staple are provided on door for padlocking. Each enclosure has 12-inch floor.

Accessories

Panels must be ordered separately. Panels are available in stainless steel, aluminum, and painted steel. Floor stand kits in 6-inch, 12-inch, 18-inch, and 24-inch heights are available for factory installation on all NEMA 4X enclosures.

Finish

These enclosures are unpainted. A Type 316 SS is also available.

Industry Standard

Meets National Electrical Manufacturers Association (NEMA) standard for Type 4 (Water Tight and Dust Tight), Type 4X (Water Tight, Dust Tight, and Corrosion Resistant), Type 12 (Industrial Use) and Type 13 (Oil Tight and Dust Tight) enclosures. JIC standard EGP-1-1967.
